

Acute medicine list 2026

This medicine list (formulary) contains medicines for acute (short-term) use only.

We have set the quantity of medicine for each medicine subcategory (medicines with similar therapeutic effects) according to a specified number of days. For example, a patient can claim up to a maximum of 30 Moxymax 250 mg capsules once every 120 days or 200 ml Augmaxcil S suspension once every 120 days.

Important: A prescription may only include one medicine from each medicine subcategory in the specified period. For example, a prescription may not include aspirin and paracetamol within 120 days of each other because both medicines are in the same medicine subcategory.

Day-to-day prescription medicine

Flexicare members can get medicine on this list from a Flexicare network general practitioner (GP) if the GP is licensed to dispense medicine. If the Flexicare network GP does not dispense medicine, the member must get the medicine from a network pharmacy.

Broad drug category	Medicine subcategory	NAPPI code	Product name	Strength	Dosage form
Analgesics	Analgesics and antipyretics	720577	Disprin		EFT
Analgesics	Analgesics and antipyretics	700909	Gulf aspirin	300 mg	TAB
Analgesics	Analgesics and antipyretics	704642	Soluspirin (was aspirin soluble)	300 mg	EFT
Analgesics	Analgesics and antipyretics	758558	Pyralen	120 mg/5 mL	SYR
Analgesics	Analgesics and antipyretics	704093	Actamol red (unboxed)	120 mg/5 mL	SYR
Analgesics	Analgesics and antipyretics	792101	Actamol red (boxed)	120 mg/5 mL	SYR
